### Whatthey Say.

We clip the following rather em-  
phatic expressions from some of our  
exchanges.

[From the Stockton Independent, June 19th.]  
We have long entertained the opin-  
ion, and still adhere to it, that there  
is no possible chance for an Indepen-  
dent victory in this State; that why-  
ever strength the Independent nomi-  
nations may receive will be drawn  
mainly, if not wholly, from the Re-  
publican forces, while the Democracy  
will act more united during the can-  
vass and at the polls next Fall than  
they have done for many years past.  
\*\*\* The situation in California to-day  
is simply divided Republican against  
united Democracy.

[From the Stockton Leader, June 15th.]  
The following is an extract from a  
letter written by a gentleman in San  
Francisco to a friend in this city.  
The writer has always been a Repub-  
lican, and held a commission in the  
United States Army during the late  
"unpleasantness." He says: "I can't  
claim to be a Democrat. I am not  
entirely satisfied with the course of  
the Administration, and I will be  
totally if I ever vote for Timothy  
Guy Phelps. Like a good many other  
Republicans, I am waiting for some-  
body to give us a decent ticket to vote."

The sad news has been received of  
the death of Jacob Keller, on the 15th  
instant at Reutlingen, Germany,  
where he had been sojourning for  
some time. He had engaged a pas-  
sage for himself and wife on the steam-  
er which left on May 8th, but was so  
utterly prostrated that he could not  
embark. Telegrams were soon after  
received by relatives in New York  
informing them of his death. Mr.  
Keller was one of the pioneer resi-  
dents of Anaheim, and his death is  
generally regretted by those with  
whom he was so long associated.

Mr. Stevens, of Willow Creek, in-  
forms us that the winds have blown  
the sand across his fields until it has  
cut the young corn off as close to the  
ground as if it had been eaten by  
sheep. This will put it back a little,  
but timely rains will bring it out  
again.

### Borrowing Money.

Borrowing money upon the installment plan is attended with these advantages: The loan can be repaid in small monthly amounts which include the interest and principal, so that by the expiration of the term the money is paid without any further obligation to the borrower. The rate of interest is generally lower, the expenses of obtaining the money are not so great as in ordinary loans, and if it is borrowed upon good paying property then it often happens that the rate will meet the monthly installment and in time pay off the debt.

For further and other particulars enquire of J. J. BROOKS, Agent for Savings and Loan Society, No. 12 Spring street. je17

### Arrival.

Mr. John Archibald has arrived and is prepared to loan money at 1 percent per month, in sums of \$500 to \$25,000. Applications will be received at the office of W. J. BROOKS, corner Spring and Temple Sts., Allen's building (up stairs). je17

Just received by S. Hellman, about 20 different styles of babies' carriages, direct from the Eastern factory, which we will sell very low. je17

### Now is Your Time.

Now is your time! No such chance again in one hundred years! ## Los Angeles Herald.

TUESDAY, JUNE 22, 1875.

THE Independent State Convention meets in Sacramento to-day.

THE Denver News says: "The nomination of T. R. PHILLIPS for Governor of California by the Republican Convention, yesterday, was something of a surprise, as Acting Governor POCHOCO was thought to be the coming man." "Sich" is fame.

NOTHING more thoroughly demonstrates the strength and superiority of soil than the fact that it will grow excellent crops of corn. Taking this for a standard test, the soil of Los Angeles valley must be considered equal to the best to be found in the world. The corn crop of El Monte, Los Nietos and other sections of this valley will be very heavy this year, and what will be of interest to many is that the greater portion of the crop is produced without irrigation. We were shown yesterday by County Clerk POTTS, an average stalk taken from a field of thirty acres on the Coyote Ranch which is ten feet high and just beginning to tassle. The stalk is about six inches in circumference. This field of corn was planted just two months ago.

At Monte Vista—Judge LINDLEY's place—on the mountain side near Santa Monica, we saw on Sunday corner fourteen feet high, each stalk bearing from two to four ears. The field is a wilderness of vegetation. This corn has grown, as has everything else on the place, without irrigation. The soil is a loose black loam and is very deep.

It will be remembered how bitterly Senator BOOTH denounced the Republicans in his speech made in San Francisco a few weeks ago. It will also be remembered that after that speech and the crimination and recrimination which followed it, both the Independent and Republican journals and leaders admitted that all hope of a union of the two factions was at an end. In the face of these indictments we have the following from the Stockton Independent, a Republican paper:

It is rumored that Geo. C. Gorham and Newton Booth were closeted together previous to the Republican State Convention and that the latter gentleman has since stated that the ticket and platform of that Convention meet his approval and that he will take the stump and advocate the same, provided the party desires his services.

To this the Sacramento Bee says: This looks like business. This, if true, explains Gorham's course in the Convention, and it is the only reasonable explanation of that gentleman's course yet given. It is also said that he offered to let the Independents write every word of the Republican platform and name every candidate on the Republican ticket, if they would agree to support it and not run a ticket of their own, but the offer was declined.

We have no doubt the office-seekers of both the Republican and Independent organizations, would be pleased to see this union of fire and nitro-glycerine brought about, but only those who obtain places on the ticket will stand by the compact. The defeated and the people will not stand by the sale.

### Evils that will Result.

Aside from the injury that Los Angeles may sustain by reason of the wide-spread assertion that she can never become the commercial city of Southern California, there are two serious results likely to follow the efforts of the unscrupulous schemers who are using Senator JONES' name and property to inveigle the unwary into purchasing lots in their magnificent city of "one hundred thousand inhabitants" at Santa Monica. One of these is the deception sought to be practiced by the flaming advertisements. The "magnificent bay of Santa Monica" exists only in the minds of those gentlemen whose harvest is in the sale of town lots. The bay of Santa Monica is an open sea, and though there, as almost anywhere on the Southern Pacific coast, a wharf may be run out to deep water at which vessels may discharge and receive cargo for ten months in the year, it is no more entitled to the name of a bay than any given area of the Pacific ocean, and people who visit the place influenced by the statement that there is a bay, are doomed to a disappointment more positive and general in character than anything which the vivid imaginations of the Eastern California-magnifying journalist is able to conjure up.

If the effect of this disappointment fell only on the interests of those who are responsible for it, the universal fitness of things would be discernable; but it does not stop there. The Santa Monica victim does not attempt to confine his notion of misstatement and deception to the locality in which he sunk his money. He believes that the whole country is over-estimated and he leaves feeling that what has been said of other parts of the valley is as false as he has proven that to be which was told him of Santa Monica. Thus the speculators call down not only a curse on their own locality, but create a false impression in the minds of the victims concerning all Southern California. The other is the falsehoods relative to Wilmington harbor. Wilmington, we are told by the Santa Monica speculators, can never be made a safe anchorage for vessels nor a practical point for the receipt and discharge of freights. The Government has already expended a considerable sum of money in dredging and otherwise improving Wilmington harbor, and this expenditure has borne good fruit. Time and a few more appropriations will make the harbor a safe and convenient anchorage, yet the effect of the statement from the agents of a United States Senator that the harbor is no harbor at all will be to create a

conviction in the Departments that the money already expended there has been thrown away, and induce a belief that further appropriations will be a mere waste of the people's money. The fact that an acceptance of these statements as true comes from a Senator who would be greatly benefited may not be known to the Senators who will be called upon to vote the appropriations, and in consequence a harbor on which considerable money has already been expended, and a few other donations would render the only safe anchorage between San Diego and San Francisco, is abandoned, the work now done lost, the landing falls into disuse, and a monopoly of the carrying business is given to the open sea wharf at Santa Monica. Suppose steamers discontinue landing at Wilmington, and all business is done at Senator JONES' wharf in the beautiful bay of Santa Monica, how much better off will be the people of this valley than they were when Wilmington held the monopoly that Santa Monica is seeking to acquire?

### The Folly of Strikes.

It is difficult to understand why laboring men will permit themselves to be led into what are popularly termed strikes. There are always journals and pot house orators ready to incite laborers to a war with their employers, but these are fungus outgrowths of the communist doctrine, and it is strange that sensible men will heed and act upon the suggestions of such dishonest fanatics. It is time, if experience teaches anything, that labor realized the hopelessness of an unequalled struggle with capital. Of the dozens of strikes in as many different departments of industry that have occurred in the United States the past few years we cannot now recall one in which the strikers attained the object aimed at. It would be something wonderful if they should. Labor has an every day duty to perform. It must provide bread not only for one but in most cases for half a dozen months. A struggle between labor and capital is a contest with the odds so great on the side of capital, that it is but a question of time when labor must go to the wall. The hands of a factory strike and work stops, so also does the food of these poor men's families. There is the bitterness of the cup. Hungry children and an empty cupboard soon convince a man that steady work at two dollars per day is better than attempts to force a raise of wages by doing nothing. A strike is a hundred poor men against one man of means. The employer closes his shop, eats his regular meals and waits for hunger to prove the fallacy of pot house argument and communist editorial. The employer loses only the profit on the labor of the employed and this is almost always smaller than the strikers estimate, while the laborers lose everything. The Pennsylvania coal mine strikers have lost much time and some of them their lives, yet it is a thousand to one it averts them nothing and in the end they will resume work at the old wages. These strikes are seldom or never caused by the oppression of capital. They are the work of nonproducing drones who live off the misery they create. If labor would mob communist newspaper offices and pot house orators who seek to incite them to strikes, capital and labor would work in harmony together and one would pay all the other earns.

### San Diego Items.

[From the Union, 15th inst.]

More Angora goats were brought down on the steamer for Guadalupe Island.

Everett H. Pomery, the newly appointed U. S. District Attorney for Arizona, arrived here on Sunday's steamer and left for the Territory by yesterday's stage.

A sad case of suicide occurred at National City on Sunday morning. A gentleman named David Dickerson, who has been a confirmed invalid for some years, arrived here a few weeks since and went out to National City, where he had friends, and took lodgings. He had been very much depressed since his arrival and his mind evidently succumbed under his sickness. On the morning stated three shots were heard, and on going to his room it was found that he had taken his life.

[From the World, 17th.]

We have found it out. The death of an old uncle of Jose was what was moving Chinaman on Tuesday. They seemed mighty glad the old fellow had paid up.

A man wants to sell us a steam engine to run our paper. Not much, you don't. We refer the matter to the steam newspaper at our neighboring village of Los Angeles, near Santa Monica.

[From the Union, 17th.]

The Central Pacific organs in Los Angeles have commenced to abuse Houghton, as a matter of course. The railroad may buy newspapers, but it can't buy public opinion.

Mr. Benj. Flint, who arrived by the last steamer, brought down the flock of Angora goats for Guadalupe Island, mentioned a day or two ago. He says that the work of killing the wild bucks on the island will be continued steadily.

[From the Union, 19th.]

We would suggest that the Los Angeles office make up the mail on arrival of trains from San Francisco; that the railroad company be authorized to carry it at once thereafter to Anaheim; that the Coast Line Stage Company put at least four horses on their stages; and that the way offices named each have a small way postal bag for their own mail, which may be thrown off by passing stages without delay to the through mail.

The Rev. I. S. Kallach, a distinguished divine of the Baptist church, and one of the most eloquent divines in America, arrived in San Diego last evening by stage. Mr. Kallach will preach in the Baptist church on Sunday.

## LETTER FROM LIEBRA RANCH.

Hunter's Camp—A Successful Hunting Party—A Grizzly Among the Spots—The Hunters in Fine Spirits.

EDITOR HERALD: I send you the congratulations of our hunting party and the paw I promised you. The grizzly was a fine fellow and showed fight to the last. He died game—showed pluck which I admired, but his judgment I could not, for him to show fight and breast Spencer and Henry rifles in the hands of such experts as Eulogio de Celis and Ramon Pico. E. de Celis and your humble servant were some distance off—a case of doubtful bravery. The huntsmen are gay and jolly. You ought to see what we have captured—everything from a grizzly to a rabbit. MACG.

### Hinds' Trouble.

WASHINGTON, June 20th.—Jerome J. Hinds, charged with bribing Frank Schamel, a clerk in the Postoffice Department, in connection with the fraudulent bids, has been acquitted. It is thought that a *notte prosa* will be entered as to the parties concerned in the mail bids frauds.

### Freights and Fares.

BALTIMORE, June 20th.—As a result of the conference on Saturday in Philadelphia between the Baltimore and Ohio and Pennsylvania railroads and freight agents, the rates for western bound freight will be advanced tomorrow in Philadelphia and Baltimore. They will be further advanced in a few days. There will be no change in the passenger rates for a day or two.

### Indictments.

NEW YORK, June 20th.—The Grand Jury of Hudson county, New Jersey, indicted "Start-up" Gillet, de la Vergne, Farrier, Fry and Turner, who constituted the Board of Public Works in 1873, for the illegal payment of \$90,000 on account of work. The then Mayor, O'Neill, has also been indicted for approving the work and the Chief Clerk for certifying thereto.

### Telegraphic Rates.

WASHINGTON, June 20.—The Postmaster-General is expected to return to Washington on Saturday. As soon as practicable thereafter he will write to the Presidents of the three principal telegraph companies to meet him here for consultation, with a view of obtaining a reduction of the present rates to the Government.

### Harvest in Kansas.

KANSAS CITY, Mo., June 20th.—Advices from Kansas say the prospect for an abundant harvest in that State were never better.

### Some Financial Troubles.

SAN FRANCISCO, June 21st.—Consolidated company has been caused in this city by the arrest of John Miller, the Secretary of the Western Development Company, formerly known as the Contract and Finance Company of the Central Pacific Railroad. On Saturday the customary examination of the accounts of the company showed false entries. It was ascertained that Miller had left by the morning Valjeo train for Sacramento. He was arrested at Marysville and brought to this city, arriving yesterday, since which time he has been in custody, presumably in the company's office. The company is very reticent about the affair, but it is rumored that Miller's defections amount to \$200,000. Speculation in stocks is the cause of the trouble. Miller expresses great contrition for his offense, and will probably receive lenient treatment. He was engaged all day yesterday with an expert in explaining the entries and assisting the expert in the examination. It is thought the company will not prosecute the case.

### Reformers' Hive.

SACRAMENTO, June 20th.—A few delegates to the Independent State Convention are already here. No speculations have yet been made on the gubernatorial nomination, beyond the determination to put up the best man available. C. B. A. of San Joaquin is mentioned for Lieutenant Governor. It is understood that Lauren Crane of Sierra county will be a candidate for Controller. An effort will also be made to find a place on the ticket for Attorney-General Love and State Treasurer Bachner.

### Long Range.

SAN FRANCISCO, June 21st.—The Summer Guards rifle team is to compete with the New York team Saturday next. The arrangements were completed yesterday. The match will be shot at Patterson's ranch, beginning at 11 A. M. Saturday. The New York team will shoot at Creedmoor Range, Long Island. The scores will be telegraphed each way at the close of the match.

### SANTA BARBARA ITEMS.

[From the Press, June 18th.]

Constable Hartnell came in to-day from San Luis Obispo, with one of the men supposed to have been engaged in robbing the stage at Graciosa recently.

Dr. Karrow of the U. S. A. and connected with the Wheeler Geological Survey, returned from Los Angeles on the 17th inst. He has been very much overland in a few days and continue their archeological researches near Santa Barbara. Rev. Mr. Bowers has had charge in the Doctor's absence, and has been very successful in collecting specimens.

[From the Press, 19th inst.]

The county jail has stood empty for months. The jail is turned out, and it is full. Two murderers, one forger, one embezzler and one stage robber grace its cells.

N. Greene Curtis has been retained by the father of Mrs. Norton to defend her on the charge of murder of her husband. He has the reputation of being the best criminal lawyer in the State; but he will not defend Cotton. This morning our reporter noticed on the street a team that looked as if it had come from the border. The horses were mere shadows, the harness was made of buckskin, the wagon was shot at once thereafter to Anaheim; that the Coast Line Stage Company put at least four horses on their stages; and that the way offices named each have a small way postal bag for their own mail, which may be thrown off by passing stages without delay to the through mail.

There's millions in it."

## Death from an Overdose of Laudanum, taken to Alleviate Pain.

EUREKA, Nev., June 19th.—Mrs. George Thatcher, a daughter of Mrs. A. Benedict of this place, died here last night from the effects of an overdose of laudanum, taken to alleviate her sufferings, caused by a sudden attack of illness. Every effort was made to resuscitate her, but the deadly poison had done its work, and after intense suffering for several hours, death ensued. Deceased was twenty-five years of age, and leaves three children here, and her husband, now at Carson, to mourn her loss.

### Arizona Items.

Col. A. W. Evans, of Gen. Kautz's staff, was thrown from a buggy by the breaking of a wheel, last week, a short distance below the Post, while out riding with Col. P. Head, and sustained a compound fracture of one of his legs. He is doing as well as could be expected, under the skillful management of the Medical Director and Post Surgeon, Drs. Magruder and Lippenott.

H. L. Chenoweth, partner of Frank Monick in packing and teaming to Sandy, left here a little over two weeks ago with a horse and two mules, saying he was going to Jala, in the Peoples Valley. Monick waited two or three days for him and then moved on with the train to Sandy, expecting to find him there, but no word had reached there concerning him. Monick and Chenoweth's brother then started to hunt for him, and spent several days in fruitless search, and finally a reward was offered and others went out, but could get no trace of him after passing the coal-pits near town. Chenoweth went back to Sandy convinced that his brother had been murdered, as it was known that he had considerable money. Monick stayed and continued the search until Monday evening, when Jerry Hayward came in from the New Mexico road and reported that he met and talked with Chenoweth far on his way to Santa Fe the Friday before. On enquiring it is ascertained that he paid all his debts here and has defrauded no one out of a cent so far as known, and taken altogether, it is a very mysterious affair. He told Hayward that he was pursuing some Mexicans who had stolen some mules from him, which was not true, as he had lost none.

Gilded Age to-night at Merced theatre.

A German Count drives the odometer wagon for the Wheeler Expedition. He does not do it for pay, as every month he receives a remittance from Germany through the German Consul at San Francisco. He has lots of fun, though.

The posters say "There's millions in it."

Rev. I. S. Kalloch arrives to-day from San Diego, and will spend a few days examining Los Angeles and her surroundings. He received a hearty welcome in San Diego, the pastors of the various churches holding a union meeting in the evening which he addressed in an eloquent lecture.

Persons having received invitations to attend the Masonic banquet and social on the 24th inst., together with all Masons, are requested to call on Constant Meyer, at the City of Paris, or on J. M. Bassett, at the HERALD office, and secure their tickets.

"There's millions in it."

Gilded Age to-night at Merced theatre.

Mr. Olden, near Anaheim, says that his crop of potatoes amounted to three hundred tons, which, at \$20 per ton, were worth \$6,000. Net profit, after paying every expense, \$2,210, or \$160 50 per acre, which is a good crop. But he netted, beside, \$738 on castor beans; \$350 on corn; \$284 on beans; \$243 on barley—all on 40 acres.

"There's millions in it."

At a meeting held in the Catholic church on Sunday evening, June 20th, by several ladies of the congregation, it was determined to hold a Fourth of July celebration Monday, July 5th, in the new Cathedral building, for the purpose of raising funds for the Cathedral. The following ladies were appointed a Committee of Arrangements, with instructions to adopt the means necessary to make the celebration grand success: Mrs. O. W. Childs, President; Mrs. G. Howard, Vice President; Mrs. Mesmer, Treasurer.

Just prior to the departure from the San Francisco prison to the steamer on Thursday, Jack Cotton was carefully searched by detective Jones, regardless of his repeated assertions that he had nothing concealed about his person. A first search revealed nothing wrong, on a second attempt Jones discovered a case knive secured to the lining of his sleeve, with the blade carefully and ingeniously notched so as to make a saw, evidently for the purpose of freeing himself from his irons when a good opportunity presented itself. He declared he only wanted the knife to cut tobacco. Cotton now says he expects to be sent to San Quentin. He will be lucky to get off with that.

# Beauty and Harmony Coming.

We are to have a visit from a number of very distinguished artists. Mme. Carreno Sauter and Mons. Sauter will leave San Francisco by steamer Orizaba for this city to-morrow, and will make their first appearance before a Los Angeles audience at Turn-Verein hall on Friday evening. The social engagement which these artists, so distinguished in the musical world, have just closed in San Francisco, is pronounced the most brilliant ever played in the great city. As a pianist Mme. Sauter is unequalled. She is one of the most beautiful and accomplished, as well as one of the best, of the many refined ladies who have made music a profession. She must be heard before she is praised, and then the praise will come spontaneously. Mons. Sauter stands, as the boys say, "way up" as a violinist. His fame is so wide-spread that nothing we can say will add to it. This violin will arrive in the railroad car, accompanied by Signora Valera, the charming soprano, and Nathaniel Cohen, a tenor of whom report speaks very favorably.

# The Theatre Combination.

Los Angeles has never been favored with such a theatrical company as is now performing at Merced Theatre. Kate Denin has always held high rank as a versatile actress, and she still retains all the charms that made her a favorite on the Eastern stage years ago. Mr. Sawtelle, heretofore unknown in this city, has made himself a first class reputation by his masterly performances. The other members of the troupe give a strong support to their principals. During the few performances of the company here their reputation has been growing until even the most captious critic is forced to pronounce their first class. Last evening the comedy of Pygmalion and Galatea was produced in fine style. Nothing of the play was marred or lost by poor acting, but all the elegant effects were brought out forcibly. It is a peculiar composition, but the audience fully entered into the spirit of the play and enjoyed it hugely. Rough Diamond was rendered in a lively manner, which brought down the house. This evening "The Gilded Age" will be put on the stage, with all its magnificent scenic effects, and our people should not miss seeing Col. Sellers and the rest of the peculiar actors of the play. By particular request, Jenny Lind will be the after piece, giving our people an opportunity of seeing Kate Denin in her varied characters as actor, dancer and singer. Secure seats at the Postoffice news depot.

# San Bernardino Items.

[From the Argus, June 20th.]

A fishing party returned day before yesterday, having been gone but three days, and in that time caught over 300 trout. Pass the buck.

Several horses are in training at the race track for the Fourth of July races. Mr. Ellis informs us that no better young stock can be found in Southern California, and he expects some very quick time on the fifth.

Now is the time for fishing parties, and well is the time and opportunity employed in that delightful pastime. Probably no place East of the Rocky Mountains can surpass San Bernardino county in luxury for the angler. We have within a radius of twelve miles of San Bernardino no less than eight streams of water where an adept in the business can pull out the trout to his heart's content. Why, our professionals think nothing of stringing from fifty to sixty per day. If you delight in angling and want a splendid go, go to the Santa Ana or Lytle Creek, and your game is made provided you know how to stock the cards.

# The Anaheim Hotel.

Yesterday we enjoyed the privilege of examining the elevations and ground plans of the new hotel to be built at Anaheim. Messrs. Kysor & Mathews, the architects, have achieved a great success in combining exterior beauty with interior convenience in the contemplated building, and at a great economy of space and money. When finished it will be the prettiest and most commodious hotel building in Southern California. In comparison with this country hotel the Los Angeles caravansaries will be compelled to hide their diminished heads. It is really a shame to see a thriving country village about erecting a hotel of metropolitan proportions and with all the accommodations found in the hotels of Eastern cities. We hope, at least, that our hotels of the future will follow the rules of architecture more, or that our capitalists, before throwing together immense piles of brick and mortar in conglomerate masses, will make a study of the architectural beauties of the new hotel at Anaheim.

It will be built in the Italian style, with French mansard roof; will be three stories high, with basement; and one hundred and four feet front by one hundred and twenty-eight feet deep. The first story will be fifteen feet high, the second thirteen feet, and the third or mansard ten feet six inches. There will be four projections in front, each sixteen feet front and projecting eight feet. Between the projections will be elegant verandas, arranged for comfort as well as ornament.

In the basement will be located the billiard parlor, bar room, wine room, two stores, bath rooms and barber shop. The first floor will contain a baggage room, wash-rooms, water-closets, reading-room, office, ladies' parlor and reception rooms, dining-room, kitchen and eleven bed-rooms. The second floor will be sub-divided into thirty-three bed-rooms, a ladies' parlor, bath-rooms and wardrobe. The mansard floor contains forty bed-rooms.

The hotel will be built of brick, ornamented with an iron railing around the roof. The outside appearance will be quite pleasing to the eye and the inside finish will be in accordance with the most refined taste and all modern hotel improvements. It is to be built on a generous and genteel scale, with an eye to the comfort of guests, rather than merely room to pack away travellers like sardines in a box. It is not a mere enclosure of so much space, but is intended for the temporary home of unfortunate human beings traveling through Southern California, and designed to afford them a comfortable home while they stay at Anaheim. We are aware that this is an innovation on the hotel idea prevalent, but we are confident that the new Anaheim Hotel, if put in proper hands, will work a revolution in the business which will result in hotels ceasing to be mere feeding places and becoming more and more like home.

"There's millions in it."

# A New Juvenile Magazine.

The first number of *Wide Awake*, the new magazine for the girls and boys, is on our table, and "wide awake" it is, too. It is thoroughly modern from cover to cover. The number opens with an elegant frontispiece from the dainty pen of Mary A. Hallack, followed by a poem, "Wide Awake," from the pen of Mrs. Louise Chandler Moulton, which fairly fills one's ears with the uproarious glee of a June morning. It is one of the finest poems she has written. The first illustration, "The Cooking Club of Tu-Whit Hollow," by the editress, Miss Farman, is a story quite out of the beaten track. The author has grand chances for fun, and for some sharp domestic lectures. "The White Chrysanthemums," by Mrs. Moulton, is an exquisite little story, and as exquisitely illustrated by W. L. Shepard. "A Poet's Home," by Ezekiah Butterworth, is a description, accompanied by an illustration we are glad to look at, of Longfellow's home. There is an entertaining paper, full of pictures, concerning "A Queer People," the people of old Japan. "Yellow Jack's Fight," by Mrs. Sol Eytinge, is something much better than a fairy story, and full of the fun that really exists, no doubt, among the lower races of creatures. "The Boy in the English serial of school-boy life, well written and dramatic. "A Baby Lion," by Patty Kingman, is accompanied by two full page pictures that will delight the baby men and women. "Young Rick," the serial by Julia A. Eastwell, is a story of a boy's adventures as full of rollicking fun and vivid characterization as anything Miss Alcott has ever written. When "Young Rick" finally gets his hands on those two cats, may we be there to see other brief papers follow: "A True Story," "Nip-Sit-Ching," "Cry-baby Joe," etc. The editorial departments are fine. Miss Ella Farman, the editress, is one of our rising writers, and her work upon this number clearly indicates the possession of that varied talent useful to a conductor of a children's magazine. There are good times ahead for the girls and boys whom she takes riding on "The Magic Carpet." George MacDonald's "Double Story" is begun in the supplement. The best of our American writers have promised contributions to the magazine, and we cordially commend it to both old and young. Price \$2.00 per annum. D. Lothrop & Co., publishers, 38 and 40 Cornhill, Boston.

"There's millions in it."

Jim O'Neal, John Arden, John M. Arden, August, Carpenter, Jim Baker, W. G. Bartlett and other sheep men have been looking about town considerably of late. The sheep are all sheared, and these gentlemen will have an easy time until it comes time for the fall clip. The fact is the sheep men are about the happiest and most prosperous people we have among us.

O'Neal was trying to get up an old-fashioned game of "bull-pen" on the plaza to pass the time away. Says he don't enjoy "kettling" dogs and such like foolishness, but thinks he could raise a lot of boys' breeds.

With a yarn ball covered with squirrel skin.—*Arizona Miner.*

# Earthquake.

At 3 A. M. yesterday a sharp shock of earthquake was felt in this city and Oakland. Most of those who felt the motion agree that there was one sudden vibration, apparently from southeast to northwest, followed by a gentle trembling as if mother earth was settling back after the shaking up. The shock was powerful enough to set chandeliers swinging, and in one instance a plaster bust was thrown from a bracket. The captain of a schooner, who was outside the Heads, reports that at first he thought his vessel had struck the ground, so violent was the first shock, but a glance at the twilight hours in eight assured him that he was in deep water.—*S. F. Bulletin, June 19.*

The Bazaar, corner of Main and Requena streets, has just received an immense stock of new goods, consisting of clothing, dry goods, boots, shoes, hats, etc., at the lowest prices at bottom prices. Call and examine their stock. ml
